

This leaflet covers the Seaham area. Explore Rockhouse Dene, look out for sculptures and memorials, and enjoy fabulous coastal views before stopping for a cuppa in Seaham or at the marina.

The walks can be combined to make longer walks and connect to the King Charles III England Coast Path. This path is being developed and will soon go all the way around the coast of England. The section in Durham is fully open and provides wonderful views of the cliffs, beaches and coastal wildlife.

Look out for reminders of the coal mining industry, reflect at the Tommy statue and enjoy the walk along the promenade.

The walks follow well-marked paths and are suitable for most people. The red route has steps and muddy sections. Barriers prevent access for mobility scooters and pushchairs.

Take care on the coast, follow local signs and keep back from the cliff edge.

Explore the fabulous Durham coast with this series of walk leaflets offering short, easy walks from the coastal villages.

Each leaflet shows colour-coded walks. The green routes are the easiest, yellow routes are longer and the red routes are the most challenging.

There are 8 leaflets in the series, and an additional leaflet showing key bus routes and travel information.

Short walks to the Durham coast
Map 1 of 8

Seaham

Coastal short walks

Map key

Green walk: 1.5 miles / 45 mins

The walk follows good, well-marked paths and is suitable for most people. There are benches and toilets along the route. Barriers make this route unsuitable for mobility scooters.

Yellow walk: 1.7 miles / 55 mins

Some sections of the route may become muddy in wet weather. In stormy weather waves can crash over the sea wall – take care. A kissing gate makes this route unsuitable for mobility scooters.

Red walk: 1.8 miles / 55 minutes

The route has steps and some steep slopes. Sections may be muddy in wet weather. Barriers make this route unsuitable for mobility scooters.

Please note: walk lengths are approximate. The walk time is based on an average walking speed of 2 miles per hour.
